SATURDAY 5TH MARCH '22
LONG 55 MILES,
SHORT 34 MILES

Wheelbase Event Briefing

Thank you for all supporting the event

Before we let you start we have some important announcements to make regarding the course and your safety.

Your timing chip should be on you left ankle which keeps it away from your chain ring. Please ensure you return this upon completion of the event. Missing chips will be charged at £35 each.

Our suitability pledge has enabled us to invest in reusable bib and bike numbers so these should be returned upon your finish.

For any reason you do not finish please ensure you notify a member of the team. This will reduce any unnecessary searches for you!

All helmets should remain fastened for the duration of the event; if you experience any problems ring in and look after each other. There is a medic based at the start / finish and a mobile medic out on the course, the number can be found on your card.

There will be a sweep vehicle for any riders requiring assistance, DNF and mechanicals.

The course is fully marked with large yellow signs and spray on the roads. The safety of the ride is your responsibility and you should at all times obey the Highway Code.

All courses – consider pot holes, cattle grids, steep descents, standing water and sheep where you least expect them.

Barbon Inn is the optional feed stop. Approx.. 55k into the ride, here you can stop and have a free cuppa and a small snack.

Coming towards Fox's Pulpit take extra care on that junction.
