

FIREWORKS 500 4th November presented by T2.EVENTS

Thank you for entering the Fireworks 500 held at Capernwray Dive Centre, Jackdaw Quarry, Capernwray Road, Lancashire LA6 1AD J35 M6

Please be advised you will be directed by Capernwray staff upon arrival to park in the centre. It will be dark so remember to bring those torches to aid your movements.

Registration: Inside up above the café, opens at **16:30** closing at **17:45**. Here you will check your details and pick up your glow stick. You will be able to collect pre-ordered t-shirts / hoodies.

A swim cap must be advised, please bring your own. We are trying to reduce the use of glow sticks this year and strongly recommend the use of reusable water proof lights such as Swim Secures Adventure Light. Alternatively, you can use a tow float with a light inside. If you do have a glow stick this should be attached to your goggle strap or the back of

your wetsuit. We have a limited supply; these are high powered for 30 minutes so please only snap as you enter the starting pen.

Swimmers are reminded that we have exclusive use of the venue (no divers) spectators and families are very welcome. We are asking for a £5 fee for any additional spectators, (children are welcome free) this will be payable on the gate as you enter the centre. Cash only. With thanks.

Water Temperature

Water temperature is expected to be around 10oC - 12oC.

Wetsuits

Because of the temperature full bodied wetsuits are **recommended** for all swimmers. Neoprene hats may be worn, hand and, or foot cover may also be worn, but they must not aid propulsion e.g., fins or paddle gloves.

Skin swimmers

Please advise staff at point of registration, wear a tow float so you can be easily identified and do ensure you have warm clothing as you exit.

T-Shirts / Hoody

If you have pre ordered these will be collectable at registration.

FIREWORKS 500 4th November presented by T2.EVENTS

Event Format

Swimmers are asked to grade themselves to enable the faster swimmers to race round and so the more leisurely swimmers also have an enjoyable event.

Last swimmer to enter 18:30

Swimmers can enter in a steady flow from the slip way. Information on water temperature will be available and a reminder of the course will also be viewable at registration. Please note no group briefing will be given. There will be staff members on hand to answer any last-minute questions.

There will be a lead kayak and two rear SUPs, in addition to support kayakers throughout the course.

Water entry

You will enter the water single file between swim counters. Please do not distract counter. Please also ensure you keep moving forward.

Swim course

A course of buoys set to make a 500m lap. Careful when exiting as it can feel rocky and going from horizontal to vertical can be a challenge!

PERSONAL SAFETY INFORMATION

The water in the quarry is cold.

During the event, if you find yourself in trouble please turnover on your back and wave for attention. There will be paddlers and a motor boat assisting you around the course.

Photography

Event photography will be provided by [JamesKirby](#) and by entering the event you accept that this photography may be used by the organisers for publicity.

Fireworks

A firework display will follow once all the swimmers are out of the water and the area is clear. This is approximately 19:15

DNFS

FIREWORKS 500 4th November presented by T2.EVENTS

Should you exit the water early or at any other point please inform an event marshal and hand your timing chip in to avoid any unnecessary searches.

We wish you an enjoyable swim and look forward to celebrating the end of the season with you.
Tasha and the T2.Events Team
